British Columbia Regulation First Aid Kit Requirements

British Columbia employers are required to have regulation first aid kits in their workplaces to ensure employee safety. British Columbia's workplace first aid requirements, as outlined by WorkSafeBC, vary according to the number of employees, the level of risk of injury in the workplace, and the distance to a medical facility.

First Aid Requirements vary depending on the situation such as:

BC Personal First Aid Kit - worker alone in low to high risk environment.

BC Basic First Aid Kit - Shift of 2-10 Workers in low to high risk environment and distance from a hospital.

BC Level 1 First Aid Kit - low to high risk environment depending on the number of workers and distance from a hospital.

BC Level 2 First Aid Kit - low to high risk environment that is 20 minutes or less surface travel time away from a hospital.

BC Level 3 First Aid Kit - low to high risk environment that is more than 20 minutes surface travel time away from a hospital.

For more information regarding BC's first aid kits, requirements and procedures please refer to the worksafeBC website.
