

# SUPERAT™ | LJKVFR

Inherent FR long johns with flash fire and arc flash protection

## ABOUT THE PRODUCT

Our Supera™ FR BaseWear LJKVFR long johns feature the same comfort of regular athletic underlayer wear while also providing flame resistance. The fabric protects against flash fire and arc flash while remaining flexible for more freedom of movement, making everyday tasks easier. The material is inherently FR, so the dual-hazard protection won't wash or wear out.
