Kloud Safety Glasses with Foam and K-Max Antifog Coating

YLK288

YLK289

Description

These Kloud Series safety glasses feature a high-performance anti-fog coating with innovative K-MAX technology. Comfortable, they offer a very large protection surface with a curved lens at the base of 10 for optimal side protection. Its foam contour is ideal for keeping out dust and airborne particles, and is removable for easy cleaning. What's more, the scratch-resistant polycarbonate lens filters out over 99.9% of harmful UV rays. Rubber-tipped temples and an integrated nose bridge ensure comfort during long working days.

Certification

- CSA Z94.3
- ANSI Z87.1

Material

- Material: Polycarbonate
- Lens thickness: 2.2mm
- Weight: 30.7g

Lens Coating

- Antifog K-Max
- UV Protection (99.9%)
- Anti-scratch

Antifog Grey - YLK289

Anti-fog Clear - YLK288

Integrated nose bridge

Ergonomic and comfortable goggles, very high protection with a curve at the base of 10 creating a large coverage that provides optimal lateral protection

Foam surround ideal for keeping dust and particles out and removable for easy cleaning

Non-slip, non-binding soft rubber tips

Coated lenses for superior scratch resistance and 99% UV protection

K-MAX

K-MAX ANTI-FOG COATING

Innovative K-Max technology creates a high-quality, high-performance anti-fog coating that's durable enough to withstand repeated cleaning without losing its properties. Not only does this superior treatment guarantee maximum clarity in the most extreme temperature and humidity conditions, it also adds a layer to the lens that resists abrasion and chemicals.

Care and Cleaning

YNK001
Washing station

YNK002
Towel

Glasses should be clean daily

- Use Kosto cleaning products, YNK001 and YNK002 for better results
- Or clean lens with running water and mild soap free of wax and grease (which may interfere with anti-fog properties) and rinse the lens with clean water, shake off excess water and air dry .
Handle with care so as not to scratch the lenses to avoid damaging vision and weakening the lenses.
Store them in a clean, dry place where they cannot fall or be crushed.
